Farmer-Businessmen's Day, Barbecue Planned

The Chamber of Commerce made tentative plans Tuesday to give a barbecue on Farmer - Businessmen Cooperation Day in Grenada Saturday, Nov. 21.

During the celebration of the day, cotton and corn contest winners will be presented their cash prizes.

Plans were made Tuesday morning at a joint meeting of the Agriculture Committee of the C. of C. and the Board of Directors of the Chamber and other interested citizens. Clayton Carpenter is chairman of the Agriculture Committee.

## PETITION ASKS FOR STRONG MAYOR FORM

A petition asking that Grenada be governed by "a strong mayor, not a half one" is being circulated in Grenada and has been signed by hundreds of people. It will be presented to the City Council.

Four copies of the petition are being circulated.

of Mrs. R. N. McCrain, one of the McCorkle twins. She now lives in Jackson.

I have not yet got to Greenwood to give a write-up to the Leflore Co. Gold Coast, but may soon get out with Albert Clark and give the pint size boat a good write-up.

A gentleman with long white whiskers and a Spanish-American knapsack on his back walked in the other day, said he had been visiting some of his folks in this county, and wanted to keep up with doings in this county, so took out a six months contract with the GOW. His name, he said, was Rufus Roberts of Houston, Miss.

There must be some sort of petition circulating in Grenada. Bill Moser came in Tuesday and started off by saying - you dont sign petitions do you - I said no, if it is a petition to do away with the CM form of government. Bill tactfully admitted that was what he was up to, but refused to let me read the petition, and that's where Bill walked out. Naturally a person should SEE anything before he SIGNED it and personally I would like to see the petition so that, as editor, I could tell others about it. If "they" want to keep it secret, far be it from me to dig it up.

Boiled down, it looks like an effort to get the 'ins' out and the 'outs' in.

White friends of our colored people are urged to urge the councilmen to make a modest contribution to the maintenance fund of the colored recreation building at the budget meeting of the council Monday night. After all, the Negro taxpayers pay THEIR part of ALL City expenses.

I say, let the people speak. If a majority wants to do away with the whole CM system, then, let it be done. However I am not going to sign any petition requesting a change. I think the present system is a pretty good one and I am willing to try to live with it.

Too often folks burn down the barn to get rid of what they think are rats. If this is the general idea, in this case, it would be easier and better to kill the rats than to destroy the barn. To get down to specific cases: If what the majority is sore at is John McEachin, the manager, then let the folks who are sore appeal to John's boss (the Council) and get the Council to fire John and get another manager; if, on the other hand, the majority is sore at Crumby, let the majority seek to persuade Crumby's boss, the city manager, to fire Crumby and get another chief of police. Be consistent in what is done. As far as I personally am concerned both McEachin as manager and Crumby as chief suit me. After all, there aint no use in burning the barn to get rid of the "rats."

Under the present set-up, there is no way to get rid of John McEachin until the members of the city council are persuaded that John is not doing a good job. At such a time, the council has full and complete authority to fire John. Under the present set-up, the only way to get rid of Crumby is to persuade John McEachin to fire Crumby, at which time John has full and complete authority to fire Crumby. Just recently, however, the councilmen and John McEachin gave Crumby a green light, after all that vicious talk about the "law" got noised about.

Asked to comment publicly on the imbroglio in the city set-up, our esteemed Chancery Clerk, Byron Hunter, had this to say:

And, I dont blame Byron for saying nothing in all known tongues. He rightly says the folks elected him to look after the business at the Chancery Clerks office and thats what he is seeking to do. Byron says he lets that kind of stuff be handled by me and let me get the cussing.

However, it would be distinctly unnatural and unrealistic for Grenada folks to "get along" in harmony very long about anything.

The outs want to get in; the ins want to stay in, and that about winds up he current imbroglio. As for me, I lived under the aldermanic form of government a long time, can do so again, but dont want to.

Here is a new one in the person

## Naval Cadet Shaw Now "Blind Flying"

Corpus Christi, Texas - Reported to the All Weather Flight School at the Naval Air station here to receive

training in the latest instrument or "Blind Flying", flight procedure is Cadet James W. Shaw, son of Mr. and Mrs. Claude H. Shaw of Grenada.

The all weather flight school gives instruction and practice in instrument flight so as to enable the pilot to fly to a destination and, by use of his aircraft instruments and Radar Ground Controlled Approaches, land in conditions of poor visibility and low clouds.

Instruction is also given in the latest air navigation device the Omni-Directional Range, which gives the pilot continuous information on the heading to fly to get to the Omni Range Station.

A major portion of each students day is spent in the class room where lectures are given by experienced instrument pilot-instructors in the proper techniques and background of instrument flying. Here the questions that occur can be readily answered to the satisfaction of all the students in a class.

Extensive use is also made of the Synthetic Instrument Trainers (link trainers) which simulate the actual flight of an airplane even to the bumping of rough air.

## VANCE MOTOR COMPANY ENLARGES SHOP

Will Connect Body Shop With Rest Of Building

Preston Vance is having his repair shop doubled in size to take care of the greatly expanded repair work which is coming to Vance Motor Co.

When completed, the repair shop will connect the older part of the building containing show rooms with the new paint and body shop which was completed almost a year ago.

Grady Green is contractor for the shop which is to have block walls and concrete floors. Grenada car owners will be interested to know that Mr. Vance has bought a \$3500 frame machine which is used for scientific wheel alignment. This is the only machine of its kind in the county.

When the expansion is complete, the whole works will take up a total of 19,000 square feet of floor space.

The 14 employees are: James Hayden, service manager; R. J. Vance, parts manager; Stanley Brown, book keeper; D. D. Wilkins, service station manager and car salesman; mechanics Henry Tindall, J. E. Harlow, Robert Roston and Walter Sykes. Charlie Land will manage the paint and body shop and be assisted by Edison Neville, Jessie Williams and Gary Lott will have charge of the wash and grease rack. Reece Houston is the star salesman.

Mr. Vance has the dealership for Plymouth and Dodge cars and a line of used cars.

ing all white veterans to attend the post's annual stag party and free Brunswick stew supper Saturday night, Sept. 12 at 7:30 at the country home of Vince Barranco.

The party Saturday will be a get together of veterans in the interest of a membership drive.

To reach Mr. Barranco's home, veterans should go South on Highway 51 until reaching the intersection of 51 and the Tie Plant Road, then turn right off 51. The Legion will post signs prominently along the way so that the Barranco home will be easy to find.

Due to the American Legion are used to promote the Legion's Americanism programs, including Boys State.

## FROM THE COUNTY SUPT. OF EDUCATION

To all patrons of the Grenada Consolidated School District:

Due to the fact that there has been some confusion or uncertainty over the matter of whether or not a tuition charge will be made in order to finance your education program for this school year, I am herewith giving you the following information:

After contacting proper authorities I now appears and I feel quite certain that no tuition charge will be necessary during this school year.

As to future years, we will have to meet the problem when we get to it. There is a possibility that our entire school system may be changed by the legislature within the next year. Such changes have been proposed and Gov. White has promised to call a special session of the Legislature on Nov. 3, 1953 to consider the proposals. Moreover, we have no way of knowing in advance what our revenue and cost of education will be in future years.

You can rest assured that the trustees of your district and I will do everything within our power to give your children the best education possible at the lowest possible cost, both now and in the years to come.

J. E. Gray, Jr., Supt. of Education.

## LITTLE LEVERETTE BOY DIES IN MEMPHIS

John Leverette, 2\* year old son of Mr. and Mrs. John William Leverette of Duck Hill died at 12:40

Dozens of State Safety Patrolmen, city policemen, sheriffs and deputies from all over North Mississippi converged on Grenada County early this week seeking two armed and dangerous convicts who escaped from the State Penitentiary Monday afternoon. At the present writing they are still at large.

Bloodhounds were brought here from the Penitentiary and road blocks were set up for James Hendricks, 30, and Calvin D. Johnson, 27.

The two men and three others were being brought in from the field so they could practice with the prison band of which all five were members. There was one guard with them.

On the way to the barracks one of the men produced a pistol and forced the guard to hand over his rifle. The other 3 men didn't participate in the escape move.

They forced Don Doherty, an employee, and his wife out of the pickup in which they were leaving the prison farm and made off in the pickup. Later the truck was found abandoned at Dora. They then stopped a 51 Chevrolet driven by Thomas W. Wink of Ridgely, Miss. and didn't harm Mr. Wink. They then went to the State Penitentiary where they were set up on all roads by the Highway Patrol and the prison guards.

The convicts were released, hiding in the woods and around sections of Leflore and Tallahatchie Counties.

Hendricks weighs 250 pounds, is 5 feet 10 inches tall, has dark brown hair, a scar on his upper lip, a tattoo of an anchor on his right arm and a ship on his left arm. He is from Jones County.

Johnson is 5 feet 9 inches tall, weighs 130 pounds, has black hair and grey eyes, has a birthmark between his eyes on his forehead. Both men were wearing striped prison clothes. He is from Leflore County.

Monday night, the road block near here caught a bootlegger but not the convicts. Sheriff S. L. Davis stated that when an auto ran the road block, officers fired on it and two men escaped into the woods. In the car, the officers found a man named Bob H. Move who said he had given the pair a lift at Avon. Because he had 14 gallons of whiskey in the car with him, he was placed in the Grenada County Jail. The men in the car who fled into the woods several miles West of Grenada on Highway 5 were not caught although bloodhounds were used.

A new 1953 Plymouth was stolen in Coffeeville Monday night. Whether or not the convicts were responsible is not known.

Town Talk BY FED ROBINSON

The old school bells around the country will soon be ringing again, and Jimmy and Sally will be leaning their bikes against the side walls again, and although they will fuss and fume a little about how short the summer was, we suspect secretly they are kinda glad to get back to the old gang again. Probably many kids do not realize it but actually they are in their realm, only when they are in school and on the playgrounds because, properly constructed school buildings and grounds are made especially for children and they can use and operate the equipment there conveniently and easily. Whereas, out in this Adult world kids are at a disadvantage and in a realm of unfair competition. Go into any theatre and you will find seats built for grown-ups and the poor kids have to sit on their legs or half stand in order to see over or around that big guy's bald head. It is the same in the restaurants where there may be a high chair for the little ones, but for a boy of 6, 8 or 10 there is not a chair in the house he can sit in comfortably and it's the same way in church. All the steps are wide and steep, and the drinking foun-

tain is too high for little boys and girls. Yes, childhood is a difficult time of life for a youngster and he has some very painful experiences during those years which we adults never know about.

We adult people are apt to believe that heaven itself is primarily for matured folks, but the truth is there are probably more children in heaven than any other kind and are considered up there as far more important and worthy. The Master said, "suffer the little children to come unto me; of such is the Kingdom of Heaven" and we believe Jesus meant for us to accept that statement literally, and we are fasting our faith upon it for a very good personal reason. We'll see you up there, Sonny!

No wonder we don't see too many tramps these days. There just isn't anybody having cooking done at home and the poor vagabond knows he couldn't get a handout if he came around. Then there's another reason. The poor tramps now-a-days couldn't find a BACK door in our modern houses built of glass and breezeways, and it wouldn't be cricket for him to sound the chimes bell at the front door.

Home - is a beautiful word with many important meanings, and is the very foundation of all the precious things in this world. Church and state are in direct relationship with homes but they too are dependent upon and derive their strength from the home. We imagine one of the greatest disappointments of the Lord is the way we have allowed our homes to become weakened. There was a time when every member of the family would rush home at the end of the day's work with keen anticipation of rejoining other members of the family, but today the whole family is almost never there together at one time. We seek all our recreation and pleasure at other places and go home only when there is nothing else at all we can do. Families have lost the old art of playing together, laughing together and praying together. Consequently families are not sticking together.

Entertaining friends in the home is passing from the scene for they have made a new bathroom out of grandmother's "sore" room and out of their friends' step at a nearby mart and meet their friends at the

night spot for supper and on to the show or other amusements and the little home is dark and deserted for the evening. Doctor's treat families for years and never see inside the home. If they are ambulant at all they are required to come to his office and if too ill to sit up they are sent directly to the hospital. A sick person never can enjoy settling down at home to recuperate but must stay in the hospital or go back to work. There's no middle ground. Well, any way there's still a few "Welcomes" on door mats and that's something for reminiscence.

—Fed.

It is, indeed a crying shame that we (and that includes all of us who have loved ones buried there) have allowed Odd Fellows' Cemetery to go down so badly. Have YOU been out to see YOUR lot lately? Improvement of this hallowed place would be a fine "project" for some civic organizations. What could be a more worthy and rewarding "project"?

## JITNEY-JUNGLE RECIPE OF THE WEEK!

### BAKED APPLE RINGS

6 large, firm apples	¼ cup lemon juice
1 cup sugar	¼ cup butter or margarine
¼ teaspoon cinnamon	

Wash apples, core and slice in rings crosswise, keeping slices together. Arrange apple rings in buttered casserole, standing around edge, then fill in center. Mix sugar and cinnamon and sprinkle over apple rings. Pour over lemon juice and dot with butter. Cover. Cook in slow oven (300F.) 45 minutes or until tender. Serve with whipped cream blended with slivered ginger. Makes 6 servings.

## ROADMASTER

CUSTOM BUILT BY BUICK

TO you who have yet to drive a 1953 Buick ROADMASTER, we have this to say:

There is waiting for you at the wheel of this car a tremendously satisfying experience—the most magnificent Buick motoring experience of the past half century. We say this as a matter of straight and simple fact.

For in this automobile—the smoothest-riding, the most maneuverable, and the most instantly responsive ROADMASTER in history—is an engine unlike any other in the world, plus an automatic transmission of similar uniqueness.

Here, you command the first Fireball V8 Engine—the world's first V8 with vertical valves—the modern and advanced V8 with the highest horsepower ever placed in a Buick, and the highest compression on the American scene today.

Here, you command distance through the liquid grace of Twin-Turbine Dynaflo—where getaway response is instant and quiet, and power build-up is infinitely, utterly smooth.

Here too, you take a new step forward in fine-car motoring—in the luxury of your ride, the luxury of your surroundings, the luxury of your control, with Power Steering standard equipment at no extra cost.

We can give you the details, the reasons, the facts.

But—wouldn't you rather learn the sum total of such things in a road sampling of the greatest ROADMASTER yet built?

We'll be happy to arrange matters. Why not visit us soon?

\*Available at additional cost on Roadmaster and Super models only. \*\*Optional at extra cost in Super and Roadmaster Sedan and Riviera models.

### LIGHTING TIPS FOR HOME-MAKERS

Just as smartly dressed women begin every season's wardrobe with one good basic dress, the lighting in every room in your home should start with a large size, well shaded ceiling fixture.

The latest designs include large shallow fixtures, 16 to 22 inches in diameter that give a character of lighting never before available in medium priced equipment.

Their shallow form makes these new fixtures less obstructive and in good harmony with the ceiling area they are seen against.

Ample size makes it possible to use a large enough number of sockets to give appropriate amounts of light without excessive brightness.

You'll enjoy the tonic like effect an attractively designed, efficient fixture can have on almost every room in your home.

If you want your rooms to look larger, say General Electric lighting authorities, choose medium to light wattages. Light colors reflect the light back to the eye while dark finishes absorb light and create a heavy, dull feeling in the room.

Necessity is often the mother of invention and many a smart room who another has just been found in the kitchen constantly discovers new ways it can save her time. This quick concept of economy of light can be a great help in choosing the right wattage and color.

Try it too. For a better picture to spreading, consider the color of the walls.

Think of a room full of good lighting that gives you must live in an apartment or rented dwelling.

There are many, inexpensive ways to improve your present lighting. Look for the best way to get the most light where you need it most.

If you have a lamp in the center of the room, replace it with a modern looking one and you'll have a new look. To show a room a new look, a wall hanging, a table lamp, a floor lamp and a desk lamp. Right over the desk, to keep you from a lamp in your eye. These things up and be changed easily and often taken with you when you move.

## \$2 1/2 Million This Year for New Rural Telephones in Mississippi

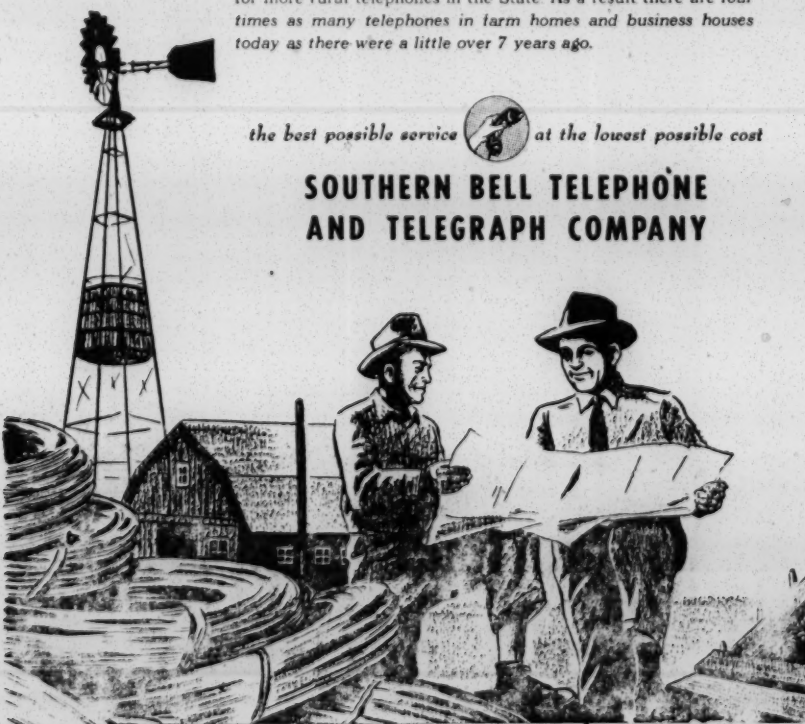

HERE IN MISSISSIPPI we're tying the rural communities we serve and the farm neighbors in them closer together by a rural telephone expansion program which, at the rate we've been going, will cost us 2 1/2 million dollars this year.

This will bring the total gross cost of new rural construction in Mississippi, since 1945, to approximately 15 million dollars.

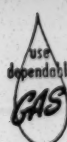

We've been breaking records to keep pace with the demand for more rural telephones in the State. As a result there are four times as many telephones in farm homes and business houses today as there were a little over 7 years ago.

### Mrs. Jordan Enjoys Trip To Canada

Mrs. Louise A. Jordan returned home last week after accompanying Mrs. H. F. Simpson of Oxford on a 3 weeks bus tour through the Western states and Canada. Louise says this is one of the most interesting trips she has taken. It was a circle tour going through Missouri, Neb., Wyoming, Montana; stopping over night in Omaha, Cheyenne and Billings.

The great oil fields at Casper and Glenrock, Wyo. greatly opened eyes to this oil capital of the west. Sweetgrass, Mont. was where we cleared customs, which was quite easy. "What state were you born in. Do you have any cigarettes or liquor in your luggage?" were the questions.

First stop in Canada was Calgary, Alberta where we spent the night, before proceeding the next morning to Banff where we spent a wonderful day in Banff Springs Hotel, going that night to Lake Louise. The next morning while looking across the lake, from the chateau, standing among the most gorgeous highly colored flowers, the green-blue water, the Victoria Mountains in the distance and Louise Glacier, made tears well forth to behold what God has created for man to enjoy. Canada has preserved its natural beauties. We spent 5 days here each one taking a tour to one of the many jewel lakes and viewing the snow and ice capped Canadian Rockies, things that adjectives really can't describe.

ing a tour to one of the many jewel lakes and viewing the snow and ice capped Canadian Rockies, things that adjectives really can't describe. On our homeward route we stopped in Minneapolis, "my" most beautiful American City, there, Green Bay, Wis., Spurgeon Bay, where these two "land lubber" girls saw two navy ships launched, a landing ship for tanks, No. 1169 and a mine sweeper, the first, an all steel boat, the 2nd an all wood, this was the high point of our whole tour. After a week in Webster Grove, Mo., with Mrs. Simpson's daughter, Mrs. Archie Miller, we stopped in Memphis for a day, getting home without an ache or pain, having been over 7,000 miles of the greatest sight seeing tour imaginable.

Many Grenadians will remember Mrs. Simpson and her two lovely little daughters, Katherine and Sally, both married now, when they lived here.

### WILL IT WASH?

For quite a while now, the makers of our best fabrics and the makers of household washers, too, have been urging us to enjoy washable homes.

They keep reminding us how sensible it is to use as many washable home furnishings as we possibly can. When "difficult" draperies wear out, replace them with hangings which can be dropped into the household washer and made fresh and bright once more, in scarcely longer than a jiffy.

Luxury and loveliness can be yours to enjoy, every bit as much as before, just as they can by picking the attractive, rich looking fabrics that also are available for bedspreads and slip covers.

One of our well known magazines recently gave six full pages to showing how easily this all can be done. As it pointed out, the question now more than ever, is "Will it go into the washer?" The new convenience of laundering with today's equipment, washer, dryer, ironer, prompts the question, says the magazine.

You may not want to put all your fabrics through the washer, dryer and ironer, the editor says. But, if you take the ease of using such equipment as your yardstick, and buy or make things accordingly, you'll discover almost everything can be washable.

The secret, it says, is in the making. The least washable part of the article determines how it will wash. The main fabric may be perfect for a slipcover to be put into the washer without giving it a second thought, but the fabric of a zipper fastener may fade and leave unwanted little streaks.

Make your curtains without sewed on hooks. Investigate a clever "pleater" gadget to hold them at the top. Buy upholstered pieces "in the muslin" only. Then have one set of slipcovers for summer, another for winter, both washable.

Look at washable carpeting in small sections made to be joined with a special tape, then taken apart whenever it comes time to drop the pieces into your washer. Are you hanging curtains or draperies across a wide area? There is no need to make them up in wide widths. Use panels, not so wide. Hung full, the separations will not show. The panels iron quickly, too, on the ironer you'll have some day if you don't possess one now.

Don't use fitted bedspreads. The flat "throw" style ironed more easily after its trip through the washer. Is there a hang-up, worn-out old headboard on your bed? Make a slipcover for it, fitted tightly, easily washed. When buying chairs, look for those most easily slip-covered.

You can make all the difference in the world, and all for the better, by switching over to a house full of washable furnishings.

Obey the fire laws!

### Sgt. Alexander Writes; He's Coming Home

Mrs. Leonard Alexander received a telegram Tuesday morning from her husband, Sgt. Alexander, in which he said that he was leaving the day by ship for home.

The long awaited message came after nearly three years of waiting to Mrs. Alexander whose husband has been a prisoner of the Communists in North Korea since December 1950.

Sgt. Alexander, 23 years old, is the son of Mr. and Mrs. J. L. Alexander of Grenada. His wife is the former Miss Opal V. Little of Charleston. He enlisted in the Army in 1948 and went overseas in August, 1950. In February, 1951 their son, Leonard Earl Alexander, was born.

He was with the last batch of prisoners released by the Communists. All of Grenada joins with the Alexanders in rejoicing that the young soldier is coming home.

## COTTON GROWERS

Do you want cotton prices to go back to 38c or 40c a pound?

If so, first place your cotton in the loan before offering it for sale. Should you decide to dump this crop as fast as you get it out, the chances are the price will continue to go on down to still lower levels.

Cooperate with us. Help us in our program to place a minimum of 5,000,000 bales in the loan. Let's work together and not let this crop sell under loan prices.

Use our service for loans and marketing. Fast method going in and fast, efficient service coming out. We can make you a full loan without red-tape or delay.
